

SUPER TILLER

SUPER TILLER

Hydraulic generator with a wide array of lighting and power distribution options available.

Available with Cyclone II or Quest cab

Cab options include:

- Medium or long length cab
- Vista roof
- Barrier doors
- EMS cabinets
- Severe-duty cab interior

140" Tractor wheel base for maximum turning performance

Recessed pocket steps facilitate easier turntable access.

The E-ONE Super Tiller with V-Max™ Cab is a 100 ft. tillered aerial ladder boasting a 500-lbs. tip-load at the end while flowing water in all positions. The air ride tiller axle and custom-designed steering system are engineered to enhance the tiller's maneuverability on congested, uneven streets.

Aerial rated at 550-lbs. (500-lbs. firefighters and 50-lbs. equipment) wet and dry.

Angled tip for better driver visibility while stowed

1000 GPM waterway with nozzle stow feature. Monitor can be positioned at the tip or end of the third section.

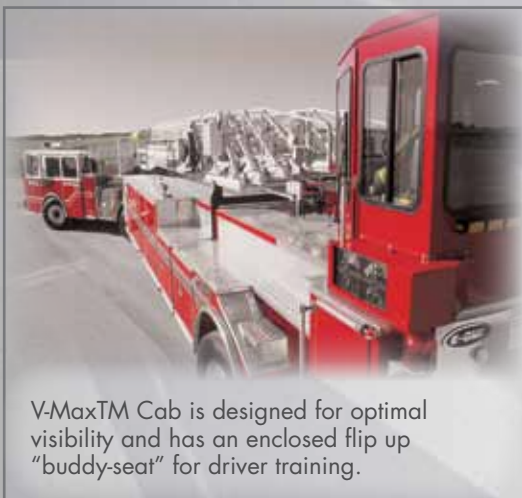

Body designed for maximum compartmentation and ground ladder storage.

Standard 110V air conditioning, heat and defrost for tiller cab.

380" Tractor axle to tiller axle

Standard short jack system permits confined space deployment

V-Max™ Cab is designed for optimal visibility and has an enclosed flip up "buddy-seat" for driver training.

- Single set of outriggers with 17' - 6" spread
- Standard run-under protection system
